

ENSURING A SECURE EMAIL PLATFORM ACROSS MULTIPLE DEVICES FOR A STATE-WIDE EYE CARE LEADER

100% SEAMLESS TRANSITION FROM TRIAL PRODUCT TO SECURE COMMUNICATION

THE CHALLENGE:

MANAGE NUMEROUS DEVICES ACROSS 10+ CLINICS AND MAINTAIN A FULLY SECURE ENVIRONMENT

Multiple clinics spread across the state with multiple devices at each location

Create Zero Trust access for all devices at all clinics

Adding BYO devices and securely manage them to support a familiar employee experience

THE SOLUTION:

A PARTNERSHIP BUILT ON ALIGNED VISION AND COMMITTED TO GROWTH THROUGH TECHNOLOGY

VMware Workspace ONE, an intelligence-driven platform that manages multiple devices - both iOS and Android

Secure implementation and management of communication across all devices

THE RESULTS

- ✓ Leveraged results that facilitated becoming the eye care delivery system of choice
- ✓ Improved time to market, leveraged TestDrive, and accomplished a seamless transition from a demo environment to production

Have the vision to manage your multi-location, multi-device workplace and keep the environment secure?
